Product made in Germany

SPIRAFLEX® UNI CUFF XL

- Tracheostomy tube with adjustable neck flange to accommodate below or above average neck sizes
- Indication: for ventilation, in case of obesity, edema and deep stenosis
- With low pressure cuff (HVLP)
- Neck flange adjustable via reliable screw mechanism to avoid inadvertent sliding and dislocation of neck-flange
- ➤ A scale (5-mm increments) on the dorsal part of the tube allows exact and reproducible adjustment of the neck-flange
- ▶ Due to the length of tracheostomy tube (XL) without fixed bending angle, the cannula tube is individually adjustable to the neck anatomy
- With 15 mm connector (UNI) to connect to ventilation equipment or HMEs
- Set includes broad tube holder, obturator and product ID card
- ▶ In addition to provide an atraumatic insertion of the tube the obturator allows suctioning of secretions. A hose connector with fingertip at the distal end of the obturator allows the connection of the suction line of a suction unit.
- MADE IN GERMANY

Order information:

SPIRAFLEX® UNI CUFF XL, SIZE 7-11

BE XL

REF 17519

When ordering, please state the size after the item number!

Size	Cuff diameter (Ø)	Angle approx.	I.D.	O.D. Tip	O.D. Neck flange	Length	REF
7	18 mm	110°	7 mm	10 mm	10 mm	max. 155 mm	17519-07
8	24 mm	110°	8 mm	11 mm	11 mm	max. 155 mm	17519-08
9	25 mm	110°	9 mm	12 mm	12 mm	max. 155 mm	17519-09
10	26 mm	110°	10 mm	13 mm	13 mm	max. 155 mm	17519-10
11	28 mm	110°	11 mm	14 mm	14 mm	max. 155 mm	17519-11

O.D. Tip = Outer diameter of the outer tube at the tip of the cannula · O.D. neck flange = Outer diameter behind the neck flange · I.D. = Inner diameter at the tip of the cannula · Length = Length over the outer curve
